Digital Solutions & Artificial Intelligence

Münster, Germany | +49 176 20746430 | nirichu@gmail.com | [linkedin.com/in/stephenmimi](https://www.linkedin.com/in/stephenmimi) | github.com/mimi-dotcom

PROFILE

Master's student in Digital Business and Innovation Management (M.A., FH Münster, expected August 2026) with a focus on data analytics, business intelligence, and AI-driven solutions. Experienced in analyzing business processes, translating business requirements into data-driven insights, and developing analytical applications using SQL, Python, Power BI, Power Automate, and SAP Analytics Cloud. Combines a strong analytical mindset with hands-on experience in agile product development and a passion for leveraging cloud, data, and AI technologies to create business value.

CORE COMPETENCIES

Cloud & Data Platforms SAP Analytics Cloud · SAP CRM · Microsoft Power Platform · Cloud Data Migration · REST APIs · Google Cloud Platform	Programming & Data SQL · Python · HTML · Pandas · NumPy · Power BI · Tableau · KPI Dashboard Design · Streamlit · Figma
Artificial Intelligence & Automation Machine Learning · Retrieval-Augmented Generation · Power Automate · AI Workflow Agents & Chatbot Development	Project Management Agile / Scrum · Stakeholder Management · Requirements Engineering · Business Case Development · Change Management

PROFESSIONAL EXPERIENCE

Working Student – Service Data & Support GEA Farm Technologies — Bönen, Germany Cloud Integration & Automation: Connected SAP CRM systems and communication channels via Power Automate, eliminating manual data transfers and saving 8 hours of administrative work per week Business Intelligence: Designed and maintained Power BI dashboards tracking core support KPIs (First Response Time, customer satisfaction, resolution rate) for 50+ regional service leads Data Migration & Governance: migration of customer and dealer data into a new cloud CRM portal and install base, safeguarding data accuracy and full GDPR compliance Stakeholder Management: Partnered with cross-border stakeholders to define data governance guidelines, strengthening data integrity across markets Process Optimization: Analyzed customer support workflows and designed migration paths to digital self-service portals to improve data management efficiency	<i>Nov 2025 – Present</i>
Volunteer AI Developer A.I for Impact – Berlin Recycling GmbH — Berlin, Germany (Remote) AI Predictive Modelling: modelled AI predictive analytics solution to forecast employee absenteeism across a 529-employee organization, using historical workforce and environmental data to identify absence patterns and high-risk periods Dashboard Development: Built an interactive employee risk dashboard visualizing individual and team-level absenteeism probabilities to support proactive staffing decisions Impact: Delivered actionable insights and recommendations that supported data-driven workforce planning and reduced operational risk	<i>Jan 2024 – May 2024</i>
Product Management Intern UnternehmerTUM – Center for Innovation & Business Creation — Munich, Germany Product Strategy: Co-developed an AI-powered digital solution for Haus des Stiftens München GmbH and the Munich Ministry of Social Affairs, connecting corporate donors with 500+ verified foundations and non-profits via an intelligent recommender system Strategy: Built product roadmap and go-to-market strategy using the AWS Backward PR-FAQ method Client & User Research: Conducted qualitative interviews and usability testing with stakeholders to prioritize features based on data Agile Delivery: Coordinated daily sprints for a cross-functional team of UI/UX designers, developers, and ML engineers	<i>Aug 2023 – Dec 2023</i>

CONSULTING & CLIENT PROJECTS

AI Digital Transformation Consulting — Master's Thesis

FH Münster July 2026

Client: Bezirksregierung Münster

- **Stakeholder Analysis:** Conducted 14 semi-structured interviews with public-sector education leaders to map governance structures and investment barriers to digital adoption
- **Data Analysis:** Applied Python-based text mining and MAXQDA to structure and analyze qualitative data, surfacing recurring patterns and risk factors
- **Business Case & Recommendation:** Delivered an AI-enabled Retrieval-Augmented Generation (RAG) solution to support strategic decision-making, for Bezirksregierung Münster to guide digital school transformation planning.

AI & Robotic Process Automation — Vectron GmbH

2025 June

DigiBIM Program, FH Münster

- **Problem Diagnosis:** Diagnosed recurring inefficiencies across the client's sales, marketing and internal workflows through direct stakeholder engagement, identifying processes suitable for AI or RPA intervention
- **Risk Assessment & Scoring:** Applied an FMEA-based risk assessment and built a structured scoring model to prioritize automation opportunities, giving the client a transparent, data-driven decision basis
- **Prototyping:** Delivered functional prototypes: a Power Automate workflow for automated lead pre-qualification and a Power BI dashboard for real-time sales and marketing KPI tracking
- **Strategic Recommendations:** Designed data-driven customer personas and tested AI-supported, cross-channel content strategies to strengthen the client's market positioning

EDUCATION

M.A. Digital Business and Innovation Management

Oct 2024 – Aug 2026

FH Münster University of Applied Sciences — Münster, Germany

Focus: Artificial Intelligence · Advanced Data Analytics (Tableau) · Data Science (Python) · Digital Transformation Strategy · Design Thinking

Bachelor of Business Administration (BBA)

Makerere University — Kampala, Uganda

Degree officially recognized in Germany by the Central Office for Foreign Education (ZAB)

CERTIFICATIONS & AWARDS

- Google Cloud Digital Leader Certification
- Cloud Computing – Database Technologies & Services Certification
- Winner, 1st Place — AI Transdev Hackathon — 2025
- Professional Scrum Master I (PSM I), Scrum.org — 2023
- Product Management & Design Thinking, UnternehmerTUM — 2023
- Advanced Data Analysis, TechLabs Digital Academy Münster — 2023
